

MINIMISE YOUR RISK & MAXIMISE POTENTIAL

GROW THE ONE THAT GROWS ALL YEAR

With proven seedling vigour, winter and spring growth, late heading and excellent regrowth in Summer. Grow Pinnacle for year round grazing, silage and hay.

“ The amount of milk we had off the paddock was really impressive, and the Pinnacle silage was the best quality we’ve ever produced. We’ll certainly be growing it again! ”

PINNACLE *Tetraploid Late Flowering Annual Italian Ryegrass*

Are you an Australian farmer or retailer? Please be assured our mission is to minimise your risk and maximise your potential by supplying the best grain and forage varieties, seed quality, and customer service. You benefit from our unique combination of independence, flexibility, and a wide world of seeds through our Australian and international alliances. Importantly, you can trust AGF and the information in this guide because of our focus on evaluation, a long history in seed multiplication, in-house seed processing, a commitment to ethical marketing, and good people.

- A proven leader in Australian annual ryegrass production
- Exceptional high quality Winter feed production
- Late Maturity allows for late-Spring and early-Summer production
- Robust across all ryegrass growing regions
- Tested in Australia since 2010

SOWING TIPS

Early sowing allows varieties to express their potential and achieve high growth rates during winter.

Sow at 25-30kg/ha alone or 5-15kg/ha when a component of a pasture blend.

Sow seed no deeper than 1cm into a fine but firm seed bed.

Sow into bare ground if direct drilling.

A light harrow and roll may help to improve germination.

Suitable for over sowing into an established stand.

Pasture productivity is directly related to successful plant establishment.
